

Build a life by design, not by default

ENTI 217 DESIGN YOUR LIFE

This **TUITION-FREE**** dual-credit program introduces students to design thinking and entrepreneurship as tools for shaping your academic path, career direction, and personal goals. Instead of waiting to see what happens next, you'll learn how to intentionally design your future using creative problem-solving strategies used by innovators and business leaders.

Career Alignment

Entrepreneurial Thinking:

- Develop creative problem-solving skills valued in business, startups, and leadership roles.

Adaptability:

- Learn how to navigate change and uncertainty in any industry.

Purpose-Driven Planning:

- Connect your strengths and values to meaningful career pathways.

Academic Awards

- Earn 5 CTS credits and 3 University of Calgary credits while gaining practical skills that apply to any career path.

In Partnership with:

UNIVERSITY OF CALGARY
HASKAYNE SCHOOL OF BUSINESS

UNLOCK YOUR FUTURE

Are you ready to **DESIGN** a future that reflects who you are and where you want to go?

This program equips you with practical tools to explore possibilities, test ideas, and build a roadmap with intention. Whether you're considering business, social impact, science, trades, or entrepreneurship, you'll leave with greater clarity, confidence, and a strategy for what comes next.

KEY LEARNING

- Apply design thinking tools to real decisions about school, career, and life.
- Break big, uncertain goals into manageable steps.
- Use creativity, collaboration, and reflection to test ideas and refine plans.
- Explore how personal values connect to career direction and impact.
- Understand how innovation can address real-world challenges.

Is this right for me?

- Do you want more clarity about your future?
- Are you curious about entrepreneurship, innovation, or solving real-world problems?
- Do you want practical strategies to make confident academic and career decisions?
